

India Responsible Education & AI Summit 2026

**Advancing Higher Education with
Sustainability, ESG and AI Integration**

May 14, 2026 | 10 AM - 5 PM
Bengaluru

Exploring the Growing Responsibility of Universities and
Higher Education Institutions in Building a Viksit Bharat

The National Summit on Responsible Higher Education & AI

India's aspiration to become a Viksit Bharat by 2047 demands a new architecture of higher education. Universities can no longer function as isolated academic spaces. They must evolve into impact institutions – shaping ethical leadership, sustainable innovation, inclusive growth, and accountable governance.

The India Responsible Education & AI Summit 2026 (REAIS 2026) is a high-level national convening designed to redefine the role of Indian universities through structured integration

Corporate Social
Responsibility (CSR)

Sustainability
Frameworks

Environmental, Social &
Governance (ESG) Standards

AI Innovation &
Integration

Community-driven
Innovation

Industry-academia
Partnerships

This summit moves beyond dialogue. It aims to create a blueprint for embedding responsibility into the DNA of higher education.

Why Responsible Education & AI ?

The global education landscape is changing rapidly

- ☒ ESG disclosures are shaping corporate investments.
- ☒ Sustainable Development Goals (SDGs) are guiding policy frameworks.
- ☒ Climate risks are influencing research priorities.
- ☒ Investors are evaluating governance integrity.
- ☒ Corporations are seeking sustainability-ready graduates.
- ☒ Growing demand for AI in education.

Indian Universities must align with this shift. Institutions that Integrate CSR, Sustainability, ESG and AI into Curriculum, Governance, Research, and Operations will define the future of Education.

REAINS 2026 positions higher education as a Strategic Pillar of National Development.

Summit Focus Areas

Governance Transformation

Embedding ESG principles into university leadership, board structures, transparency, and reporting.

Curriculum Innovation

Mainstreaming sustainability, climate literacy, ethics, and social impact and AI into academic programs.

CSR–University Collaboration

Unlocking CSR capital for infrastructure, research labs, community projects, scholarships, and rural outreach.

Sustainable Campus Models

Carbon-neutral campuses, green infrastructure, waste management, renewable energy adoption.

Impact Measurement & Reporting

Developing measurable frameworks for university-level ESG and social impact disclosures.
