Building Responsible Leaders Shaping a Sustainable Bharat

MESSAGE FROM THE CHANCELLOR

At Rungta International Skills University, we are guided by a clear and enduring belief: education must go beyond conventional boundaries to create professionals who are not only academically strong, but also skill-driven, industry-ready, socially responsible, and globally competent. In an era of rapid transformation, education must deliver more than knowledge alone. It must build practical capability, ethical leadership, critical thinking, and a deep sense of purpose aligned with the evolving needs of industry, society, and the nation.

Our new programmes reflect this vision in its truest form. More than academic offerings, these courses represent our commitment to nurturing professionals who understand that sustainability, responsible governance, and social impact are essential pillars of modern leadership.

At the University, we place strong emphasis on integrating academic excellence with practical learning, industry relevance, research orientation, and real-world exposure. Our objective is to ensure that learners are

equipped not only with conceptual understanding but also with the professional skills, strategic mindset, and leadership qualities required to succeed in a competitive and changing global environment.

Our vision is to build an academic ecosystem where knowledge meets skills, and learning leads to meaningful opportunity. We aspire to empower students not merely to seek jobs, but to become innovators, entrepreneurs, problem-solvers, and change-makers. Through industry-aligned curricula, experiential learning, research engagement, and purposeful collaborations, we prepare our students to lead with competence, confidence, and conscience.

I extend my heartfelt best wishes to all students and industry professionals who begin this transformative journey with us. May you emerge as capable professionals, responsible citizens, and inspiring leaders who create lasting value for industry, society, and nation-building. ■

Santosh Rungta
Chancellor

MESSAGE FROM THE VICE CHANCELLOR

I'm pleased to introduce our new academic programmes in Sustainability, ESG, and CSR at Rungta International Skills University. These forward-looking programmes reflect our institutional commitment to preparing responsible, skilled, and industry-ready professionals who can confidently engage with the evolving relationship between business, society, and sustainable development.

At Rungta International Skills University, we strongly believe that education must combine academic rigor with skill development and industry relevance. Our focus is to ensure that graduates are not only degree holders but professionals of substance who are prepared to contribute meaningfully to corporate responsibility, compliance, sustainability, and inclusive development.

We are living in a time when the role of business is undergoing a fundamental transformation. Today, organisations are evaluated not only by their financial performance, but also by their contribution to social equity, environmental stewardship, ethical governance, and long-term value creation. In this changing landscape, sustainability and corporate responsibility have moved from the margins to the centre of strategic decision-making.

India has played a pioneering role in this transformation. As the first country in the world to mandate Corporate Social Responsibility under the Companies Act, 2013, it has created a unique and progressive framework for responsible business conduct. At the same time, the growing importance of ESG standards, sustainability reporting, and stakeholder accountability has generated a strong demand for professionals who are academically prepared, ethically grounded, and professionally competent.

We've designed our programmes to respond to this national and global shift. They offer a structured academic pathway that integrates sustainability principles, CSR law, ESG frameworks, responsible governance, impact assessment, and development practice.

Our educational philosophy is closely aligned with the vision of the National Education Policy 2020, which emphasizes holistic development, multidisciplinary learning, innovation, employability, and global outlook.

We are also proud that these programmes carry the strength of academic relevance and contemporary industry orientation. In association with India CSR, one of the country's leading knowledge platforms in the domain of CSR and sustainability, the programmes seek to bridge academic excellence with emerging practice and sectoral insight.

I warmly invite students and industry professionals who aspire to make a meaningful difference in the fields of sustainability, corporate responsibility, governance, and development to join this transformative academic journey. Together, let us build a future in which business growth, social progress, and environmental responsibility move forward hand in hand. ■

Dr. Jawahar Suriseti

Vice Chancellor
Rungta International Skills University Bilai,
Chhattisgarh

OUTLINE

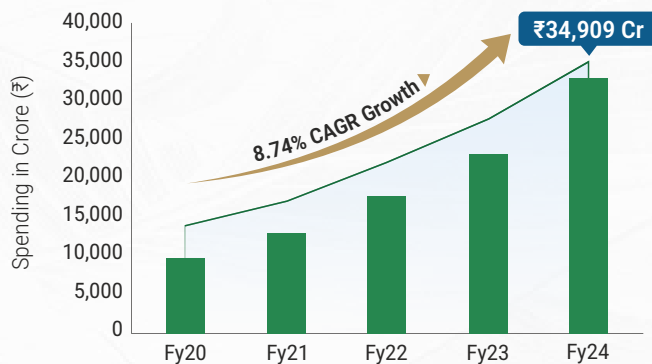

CSR is Now Structured Nation-Building

India is a pioneer in mandating Corporate Social Responsibility (CSR) under the Companies Act, 2013. Today, CSR and ESG are reshaping how businesses operate, how communities develop, and how sustainability is measured. CSR, ESG reporting, and sustainability compliance have become essential components of modern business governance.

The Companies Act, 2013 requires eligible companies to spend at least 2% of their average net profits on CSR activities. What began as a compliance requirement has now evolved into a value-driven investment framework. India's CSR ecosystem has emerged as one of the largest organized social investment mechanisms in the world.

According to a report by CareEdge Analytics and Advisory, CSR spending in India reached ₹34,909 crore in FY24, growing at a compound annual growth rate (CAGR) of 8.74% between FY20 and FY24. This remarkable growth reflects a significant transformation in corporate philanthropy.

A notable trend further indicates that 63% of companies exceeded the mandated CSR spending in FY24, compared to 34% in FY20, demonstrating a rising corporate commitment to responsible and sustainable development.

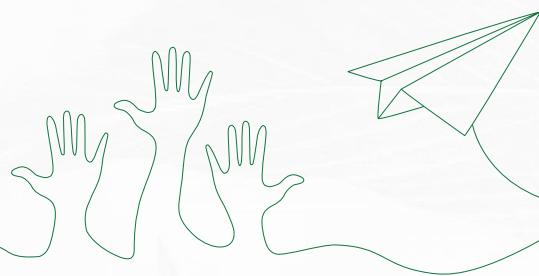

63%

Companies exceeded mandated spending in FY24 (Up from 34% in FY20)

First Nation

India is the first country to legally mandate CSR under the Companies Act, 2013.

THE COURSE OVERVIEW

BBA – CSR, Sustainability and ESG

B. Voc. – CSR, Sustainability and ESG (for Industry Professionals)

MBA – CSR, Sustainability and ESG

Executive MBA – CSR, Sustainability and ESG (for Industry Professionals)

India's Pioneering Programmes in Sustainability, ESG and CSR
Designed to Shape Future-ready, Skill-driven Leaders

Corporate Social Responsibility

Offered at undergraduate, vocational, postgraduate, and executive levels, these programmes respond to the growing need for professionals who can lead with responsibility, integrity, and strategic vision in an increasingly sustainability-focused world.

Developed in academic association with India CSR, the programmes combine academic rigor with practical relevance, industry exposure, field immersion, and real-world learning. They prepare students and working professionals to engage confidently with the evolving domains of Corporate Social Responsibility, Environmental, Social and Governance, sustainability leadership,

Environmental, Social & Governance

compliance, public policy, climate action, and impact management.

Rooted in India's development priorities and aligned with global frameworks, these programmes go beyond conventional education. They offer a comprehensive learning journey that equips learners with the knowledge, skills, and leadership capabilities required to navigate complex business, social, and environmental realities.

More than degrees, these innovative academic programmes are pathways to purposeful leadership, responsible management, and sustainable nation-building.

Sustainability Leadership

INSTITUTIONAL VISION

The programmes in Sustainability, ESG and CSR, offered under the aegis of the School of Sustainable Development, ESG and CSR, are rooted in a larger vision: to build a nationally recognised centre of excellence in responsible business education, sustainability leadership, and impact-driven learning.

Through these programmes, the School aspires to position the institution as:

- » a pioneer in structured education in Sustainability, ESG and CSR in India
- » a national knowledge hub for sustainability, governance, social impact, and responsible leadership
- » a strategic bridge between corporate India, policy discourse, and grassroots development ecosystems
- » a centre for nurturing ethical, accountable, skill-driven, and future-ready leaders

Driven by this vision, the School is committed to academic excellence, industry partnership, policy engagement, applied research, and experiential learning, enabling learners to respond effectively to the social, environmental, and governance challenges of a rapidly changing world.

HIGHLIGHTS

WHY THIS PROGRAMME?

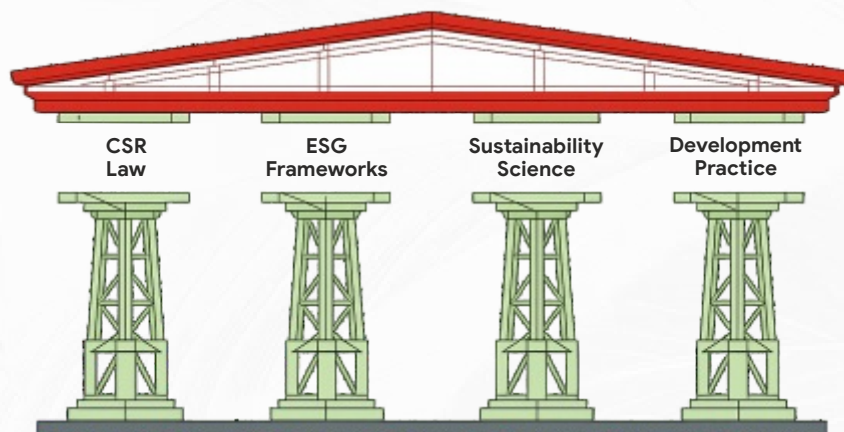

India's CSR and sustainability ecosystem is evolving rapidly. There is a growing need for structured, interdisciplinary undergraduate programmes that integrate CSR law, ESG frameworks, sustainability science, and development practice within the Indian regulatory and socio-economic context.

With rising ESG regulations and mandatory CSR compliance, organizations across sectors are actively hiring trained professionals in sustainability reporting, compliance management, and impact evaluation

- Mandatory CSR spending under the 2% rule (Companies Act, 2013)
- ESG reporting requirements under SEBI's BRSR framework
- A national Net Zero commitment by 2070
- Expanding sustainability and compliance regulations
- A rapidly growing demand for impact assessment and ESG professionals

In this evolving regulatory and corporate landscape, skilled CSR and Sustainability professionals are no longer optional—they are essential.

Four Interdisciplinary Pillars

CURRICULUM

FRAMEWORK & COURSE STRUCTURE

CSR Law & Compliance

- Section 135 – Companies Act 2013
- CSR Rules & Amendments
- Schedule VII
- CSR Committee and Reporting

Project Design & Impact Assessment

- Need Assessment
- Monitoring & Evaluation
- SROI
- Social Auditing

Governance & Ethical Leadership

- Corporate Governance
- Responsible Business Conduct
- Stakeholder Engagement

ESG & Sustainability Frameworks

- BRSR (SEBI)
- GRI Standards
- Sustainability Reporting
- Carbon Accounting Basics

Sectoral Expertise

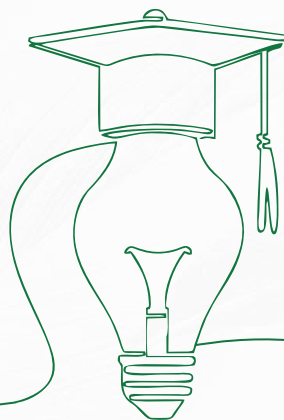

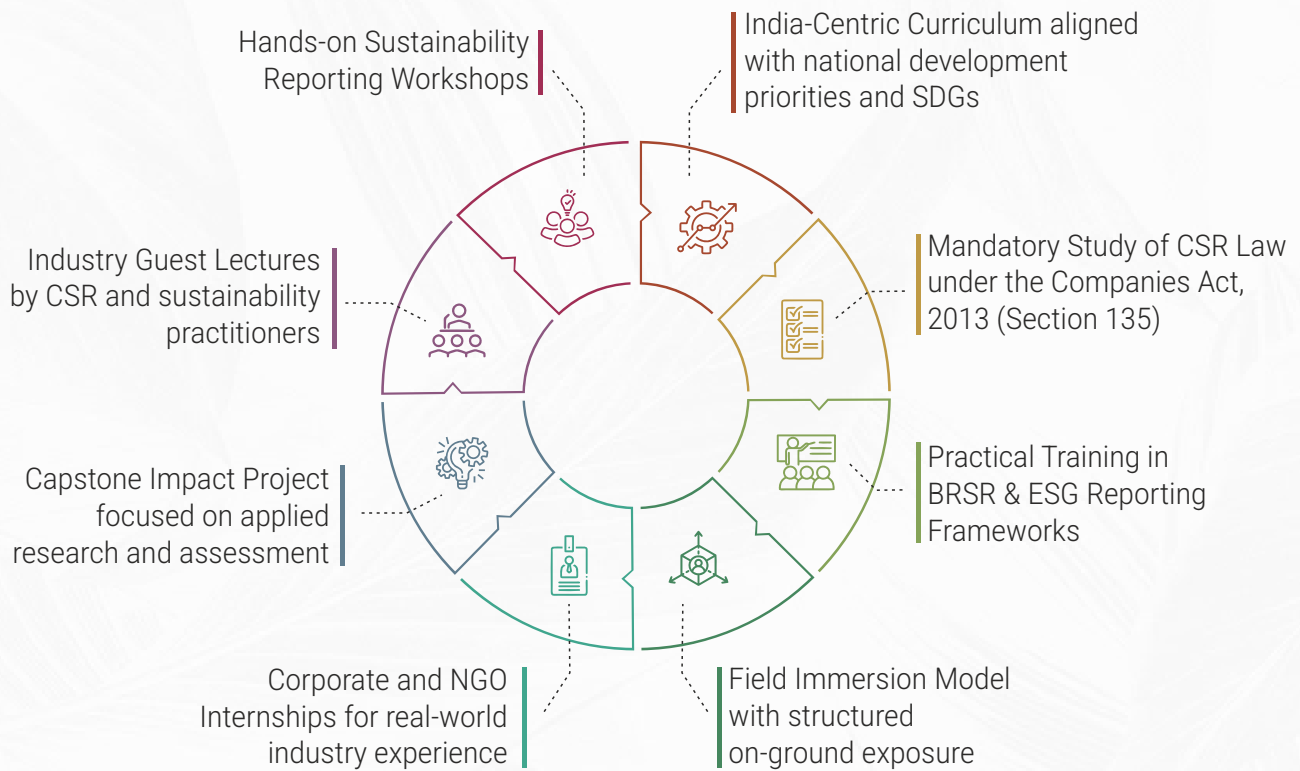

- CSR in Education
- Healthcare and Nutrition
- Rural Development
- Climate and Renewable Energy

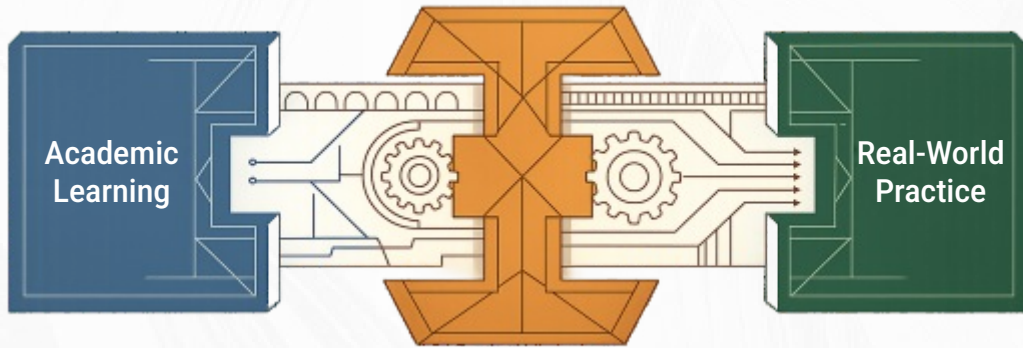

THE UNIQUENESS

INDUSTRY ACADEMIA FEATURES

The programmes in Sustainability, ESG and CSR have been thoughtfully designed within a distinctive academic framework that combines academic rigour, practical relevance, and experiential learning to prepare responsible, skilled, and industry-ready professionals for the evolving Sustainability, ESG and CSR ecosystem.

INDUSTRY INTEGRATION

These programmes provide structured industry exposure, enabling learners to connect academic knowledge with real-world practice across diverse sectors and professional contexts.

In addition, the programme features regular lectures and interactive sessions by distinguished visiting faculty and industry leaders, including

Students Gain Direct Exposure

		
Corporate Executives	CSR Heads & Sustainability Leaders	ESG Practitioners
		
NPO and Development Sector Leaders	Government Officials	Impact Assessment Experts

This strong industry-academia interface ensures that students graduate with practical insights, professional networks, and applied knowledge relevant to contemporary CSR and sustainability ecosystems.

CSR & SUSTAINABILITY RESOURCE CENTRE

The Resource Architecture

An extensive, categorized collection bridging academic theory and corporate data.

Academic Literature

- » Specialized Books
- » Academic Journals
- » Digital E-resources

Corporate Intelligence

- » Corporate CSR Reports
- » ESG Disclosures

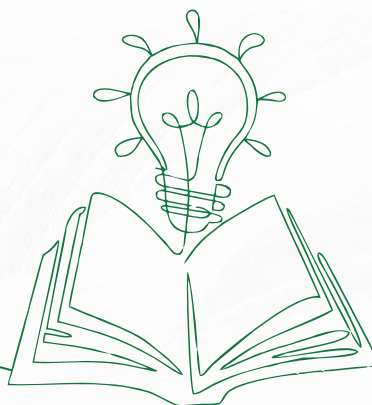

Real-World Impact

- » Policy Documents
- » Impact Assessment Studies

Students of these programmes will benefit from access to a well-curated Sustainability, ESG and CSR Resource Centre, developed to support academic excellence, research orientation, and professional growth. The Centre will offer an extensive repository of specialised books, journals, corporate reports, ESG disclosures, policy documents, impact studies, and digital learning resources relevant to the rapidly evolving sustainability landscape.

By engaging with this rich knowledge ecosystem, learners will gain deeper insight into industry practices, regulatory frameworks, and global standards in Sustainability, ESG and CSR, thereby strengthening both their academic grounding and real-world professional readiness.

CAREER OPPORTUNITIES

These programmes equip learners for high-impact and future-focused roles across corporate, consulting, development, governance, sustainability, and policy domains.

Graduates and post graduates can pursue professional roles such as

- » CSR Executive
- » ESG Analyst
- » Sustainability Officer
- » Impact Assessment Consultant
- » CSR Compliance Officer
- » NGO Programme Manager
- » Sustainability Reporting Associate
- » Social Audit Professional

With India's expanding CSR mandate and growing ESG regulations, skilled professionals in compliance, reporting, and impact evaluation are increasingly in demand across industries.

Pathways for Higher Studies

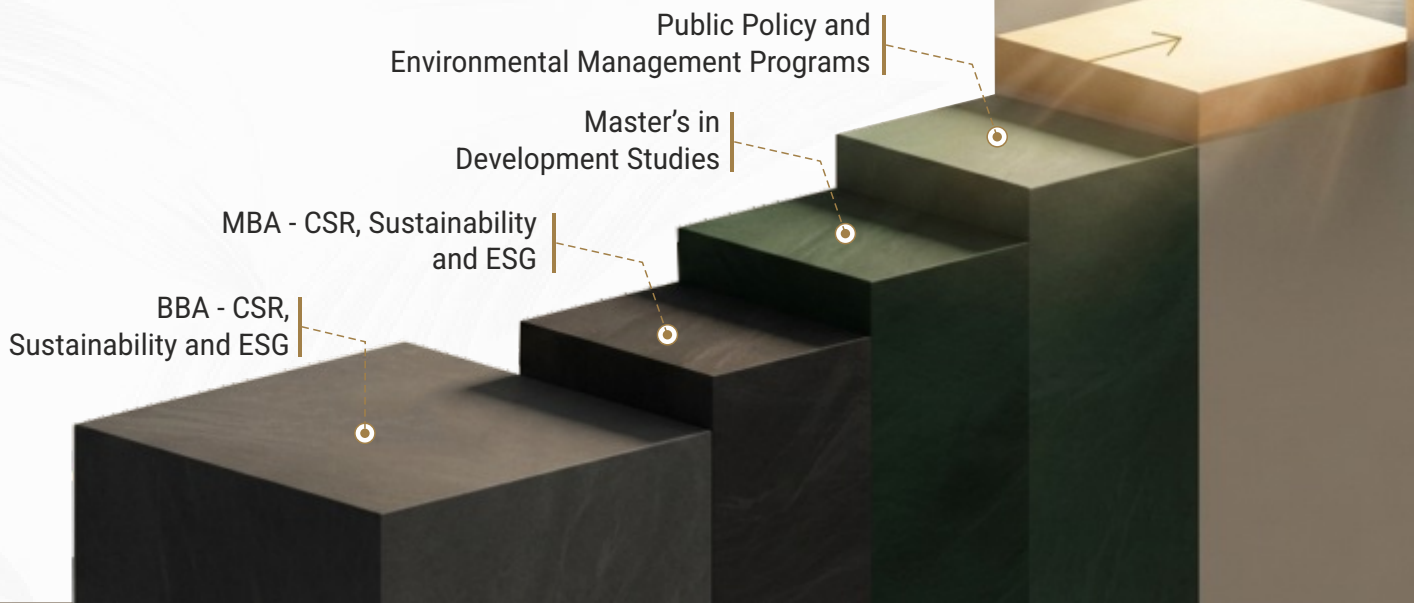

The programme also provides a strong academic foundation for advanced studies in

- » MBA (CSR / ESG / Sustainability Management)
- » Public Policy
- » Environmental Management
- » Development Studies

Graduates are well-positioned to pursue postgraduate education in India and abroad, building specialized expertise in responsible business and sustainable development.

A Powerful Launchpad for Advanced Higher Education

Strengthen your expertise and step into leadership roles in corporate and development sectors by pursuing:

ADMISSION

ELIGIBILITY CRITERIA

BBA - CSR, Sustainability and ESG

Admission to the BBA - Sustainability, ESG and CSR and the B. Voc. - Sustainability, ESG and CSR (for Industry Professionals) programmes is open to students who meet the following criteria.

- 10+2 or equivalent qualification from a recognized board (any stream)
- Minimum qualifying marks as prescribed by the University norms
- Demonstrated interest in social impact, sustainability, corporate governance, or development studies

Students from Science, Commerce, and Arts backgrounds are encouraged to apply.

MBA - CSR, Sustainability and ESG

Admission to the MBA - Sustainability, ESG and CSR and Executive MBA - Sustainability, ESG and CSR (for Industry Professionals) programmes is open to graduates who demonstrate academic eligibility and a keen interest or professional engagement in Sustainability, ESG, and CSR domains.

Who Should Apply?

The programme also provides a strong academic foundation for advanced studies in

- Students passionate about social change
- Youth interested in sustainable development
- Aspirants for corporate CSR roles
- Future ESG analysts and sustainability leaders
- Individuals committed to ethical business practices

Admission Process

Selected candidates will receive an official offer letter and must confirm their admission by completing the prescribed fee payment within the stipulated timeline.

Step 1 Submit Your Application	Complete the online application form and submit the required academic details to express your interest in the programme.
Step 2 Application Review	The University Admission Panel will evaluate your academic background, eligibility, and alignment with the programme's objectives.
Step 3 Admission Confirmation	Upon selection, candidates will receive a formal admission offer. Seats will be confirmed upon payment of the prescribed fee. The official admission letter will be issued thereafter.

Need Assistance with Your Application?

Our dedicated admissions team is available to guide you throughout the process.

We can help you

-  Understand Eligibility Criteria
-  Navigate the Application Process
-  Explore fee Structure and Payment Options
-  Learn more about the Curriculum & Career Pathways
-  Clarify Programme Details & Internship Opportunities

PROGRAMME LEADERSHIP

Rusen Kumar is a nationally recognized CSR thought leader, journalist, and author with over two decades of experience in Corporate Social Responsibility, sustainability advocacy, and development communication. As the Founder of India CSR, one of the country's leading CSR knowledge platforms, he has played a pioneering role in shaping discourse around responsible business and corporate governance in India. He has closely engaged with corporate leaders, policymakers, development institutions, and grassroots organisations, contributing to the evolution of CSR as a structured and accountable ecosystem under

Rusen Kumar
Founder, India CSR

the Companies Act, 2013. An accomplished author of multiple books and a speaker at national CSR and sustainability forums, Rusen Kumar brings deep insights into CSR policy, ESG frameworks, impact assessment, and development strategy. Under his academic guidance, the B.Sc. in CSR and Sustainability and the B.Voc. in CSR & Sustainability (for Industry Professionals) programmes are designed to bridge industry practice with academic rigor—preparing future-ready leaders in responsible business and sustainable development. ■

Programme Designed in Academic Association with

India's Leading CSR & Sustainability Knowledge Platform

India CSR is one of the country's foremost knowledge and media platforms dedicated to Corporate Social Responsibility (CSR), Environmental, Social and Governance (ESG), and sustainable development. Established with the vision of strengthening responsible business practices in India, the platform has been actively contributing to CSR awareness, policy discourse, and impact-driven dialogue for over a decade. Through research-based journalism, leadership summits, policy analysis, and industry engagement, India CSR has created a credible ecosystem connecting corporates, government

institutions, development organisations, and academia. It plays a significant role in disseminating insights on CSR law, ESG reporting frameworks, sustainability trends, and corporate impact initiatives. As the academic knowledge partner for the B.Sc. in CSR and Sustainability and the B.Voc. in CSR & Sustainability (for Industry Professionals) programmes, India CSR brings industry relevance, thought leadership, and practical exposure—ensuring that the curriculum reflects real-world developments and evolving regulatory landscapes.

RUNGTA INTERNATIONAL SKILLS UNIVERSITY, BHILAI

Rungta International Skills University (RISU) Bhilai, Chhattisgarh was established after 26 years of academic excellence and expertise by the Santosh Rungta Group of Institutions. Built on a strong foundation of experience, RISU is committed to nurturing future-ready professionals equipped with in-demand global skills. Our industry-immersive degree programs, aligned with NEP 2020, are designed within a holistic development framework that ensures not only employability but a global outlook.

Located in the educational hub of Bhilai-Durg, Chhattisgarh, RISU thrives in a peaceful and culturally rich environment. Our vibrant campus is home to students from 8 countries and 13 Indian states, creating a truly diverse and inclusive learning community.

At RISU, academic flexibility, mentorship from industry leaders, and faculty experienced in skill development form the core of our progressive, outcome-based learning approach. We emphasize conceptual clarity, industry integration, and personal growth to shape globally competent professionals.

Our state-of-the-art infrastructure, world-class faculty, global institutional tie-ups, and strong corporate connect empower students to excel in fields such as Computer Science, Engineering, Pharmacy, Science & Technology, and Education.

RISU is more than a university—it's a transformative journey where education meets opportunity, excellence, and innovation. Welcome to RISU, where your dreams take flight.
